Truck Clamping and Support System

Hold on to more business

The Car-O-Liner® Truck Clamping and Support System lets you anchor and repair every compact truck, pickup, van and sport utility vehicle on the road – with holding power that far exceeds pulling requirements.

It's an ideal companion to the BenchRack® and Mark 6™ systems, and has set new industry standards for full-frame repairs.

B260 clamp holds tightly to the spring shackle without removing the spring. Saves time and expense.

Vice-like clamp holds all frames effortlessly and precisely without collapsing the rails.

Clamps rotate to accommodate new angled frame designs.

Line drawings on data sheets show exactly how and where to mount the clamps.

Clamps easily adapt to hard to reach areas and obstructions.

Keep your truck clamping and support system neatly in one place with this unique storage cart.

Car-O-Liner is a Leading Global Provider of Assured and Profitable Alignment Processes to the Automotive Industry, including Technical Development, Training and Service. Over 40 000 Car-O-Liner Collision Repair Systems are in use worldwide. Car-O-Liner runs operations of its own in Scandinavia, USA, UK, France, Germany, Thailand and China and sells through local distributors in more than 70 countries.

Car-O-Liner products are well known for their high quality, advanced technology and ergonomic design.

Car-O-Liner and Josam are both part of the Alignment Systems Group. Car-O-Liner is focused on servicing the car and light truck industry while Josam is focused on heavy duty vehicles.
